April 07 2015

We contacted Avaton and two other companies in hopes to have our camera system upgraded, current ones serviced and add a few more. From initial contact to completion, the whole Avaton team was friendly, professional and courteous. They took the time to explain the difference in new technology, different options and presented us with their recommended solution.

They worked around our schedule as peak times at our dealership can be busy. Their work was meticulous and clean and they ensured they cleaned up after themselves.

Overall, the system turned out better than we had expected and the quality has improved dramatically. We would definitely use their services again and highly recommend them!

Thank you,

A handwritten signature in black ink, appearing to read 'Lou Alyass', with a long horizontal flourish extending to the right.
