TO WHOM IT MAY CONCERN RE: AVATON

A friend referred me to Avaton a few years ago and my family and I have been exclusively using them ever since.

The workmanship and professionalism shown by the installation techs and sales personnel were very impressive. I felt comfortable to have them design a system that fit my needs and had them implement it without supervision in our home and cottage.

I have so far purchased from Avaton a customized Theatre system, Wifi amplification and gym audio and video systems.

I would definitely recommend them to anyone that wants Audio/Video systems from a company that you can trust.

Yours truly,

Kenneth Finkelstein
Chief Executive Officer
